DETAILED ACTION

Allowable Subject Matter

Claims 8-11 are allowed.

The following is an examiner's statement of reasons for allowance: The examiner has reviewed the prior art in light of applicant's claimed invention and finds that the claims define over the prior art. The prior art does not disclose or suggest inter alia the limitations "...A unipolar quantum cascade (QC) laser device particularly configured to provide a measurement of intersubband electroluminescence (ISB-EL), said QC laser device comprising the following layers and regions formed on a semiconductor substrate: a core region including a QC active region which comprises a multiplicity of unipolar radiative transition regions interleaved with a multiplicity of unipolar injection/relaxation regions, upper and lower cladding regions bounding said core region, at least said upper cladding region and said core region having the shape of a longitudinal stripe having sidewalls and a top surface, said lower cladding region disposed to cover a top major surface of said semiconductor substrate; a top metal contact layer disposed over the stripe-shaped upper cladding region, a bottom metal contact layer disposed to overlay a bottom major surface of said semiconductor substrate; and a pair of laser facets formed as the terminations of said stripe-shaped core

region, said facets formed to be orthogonal to said longitudinal stripe-shaped core region such that upon the application of a bias current between said top and bottom metal contact layers, laser emission will be created in a longitudinal direction along said QC active region and exit at said pair of laser facets characterized in that the unipolar quantum cascade laser structure is formed to include a longitudinal cleave through the stripe-shaped upper cladding and core regions so as to expose the QC active region, and the laser facets are formed to include a highly reflective surface coating, such that intersubband electroluminescence (ISB-EL) will exit from the exposed QC active region.”

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
